## Why Electric ?

### No Petrol

As petrol prices are rising, it is the right time to explore electric scooter. Switch to Electric ! Switch to BOS MOTORS !

### No License

This smart electric scooter is a 'no license ' kind of vehicle that is suited to everybody, right from a school going child to an elder.

### No Tax

Electric scooters are exempted from tax. We have made a smart move ! Have you ? Save 95 % of your money ! Book a test drive.

### No Registration

The low speed electric scooter models which are CMVR is exempted from registration and road tax. You're promised no registration fee.

### No Sound

Travelling around a city and silence never go hand-in-hand. A whisper quiet mode of transport that's the fastest and quietest way.

### No Pollution

Electric scooters are a lifestyle choice and in addition, it is good to know that you will not play a role in the pollution.

### Low Maintenance

Very low maintenance needed and if you want something lighter and more energy efficient, BOS electric scooter can be a perfect fit for you.

### Wide Variety

Electric vehicles are the future face of the global vehicle industry. At BOS MOTORS we have 3 different models with 10 different colors.
